

Longitudinal Comparison of Graduating Seniors' Experiences

The Senior Survey is administered every spring to graduating seniors. Data collected reflect students' views of their overall college experience, student and campus life, academic majors and minors, quality of faculty interactions and courses, and research opportunities for undergraduates.

This report compares the trends of students' satisfaction, sense of belonging, and perspectives on their development, campus life, campus climate and engagement with other students from 2006 to 2013.

For overall information on the Senior Survey, please visit the Center for Education Assessment website: <http://www.ugeducation.ucla.edu/assessment/>

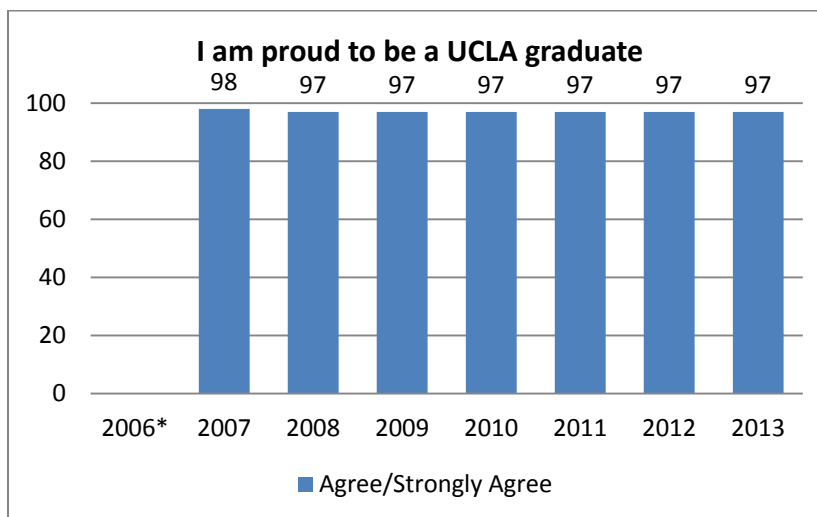

More reporting on the student life aspects of the survey can be found on the SAIRO website: http://www.sairo.ucla.edu/data/efforts_grad
