

Long-term Planning

-CASA Session 9-

Where We've Been, Where We're Going...

Confidence Barometer

Today's Learning Outcomes

After today you should be able to:

- Lead a discussion with department and key stakeholders about long term assessment efforts
- Understand the availability of existing data and how to use that in long term assessment planning

Session 9 Overview

- Decisions about What to Assess, When, and How
 - Connecting to Goals & Strategic Planning
 - Calendaring multiple assessments—Long range planning
 - Capitalizing on existing data
- **BREAK**
- Sharing beyond the campus/Learning from others
- Final Logistics
 - Post-test
 - Assessment Plan review timeline
- Celebration

KEY CONSIDERATIONS IN PLANNING

What departmental goals and activities do you need evidence for?

Is there existing data that you can use to answer your assessment question(s)?

YES

Capitalize on existing data

NO

Do you need this data on a continual basis?

NO

YES

Work to routinize data collection

Plan for new assessment based on priority information needs

NO

Are there outside requirements for timing of data delivery?

YES

Time new assessment to meet needs

Questions to Ask Yourself

- What information do I need on a regular/consistent basis?
 - Can I routinize collection of this?
- What are the priority areas of information now?
 - Improvement?
 - Accountability?
 - Funding?
- How much evidence do I need in a particular area?
- What information already exists?
 - **Department**
 - Campus
 - SAIRO www.sairo.ucla.edu
 - APB (formerly AIM) www.aim.ucla.edu

DEFINING ASSESSMENT PURPOSE

Define mission and goals

Departmental Outcomes/Programs /Services Mapping

Data Audit

Identify outcome/ phenomenon of interest

Current Assessment Mapping (combination of previous 2 activities)

Articulate Clear Assessment Question(s)

Remember your mapping in Session Two?

That can help you prioritize and plan...

Activity

STEP ONE:

- On each post-it write:
 - Information need/Question
 - What type of data collection would accomplish this?

STEP TWO:

- Put them in order of importance to you/your department right now.

Example: Program Planning

Assessment Projects:

YEAR 1	YEAR 2	YEAR 3	YEAR 4
Focus group on student needs	<i>No assessment Implement a program to address need/ refine existing program learning outcomes to align with needs</i>	Assessment of 1-2 program learning outcomes	Assessment of 1-2 program learning outcomes

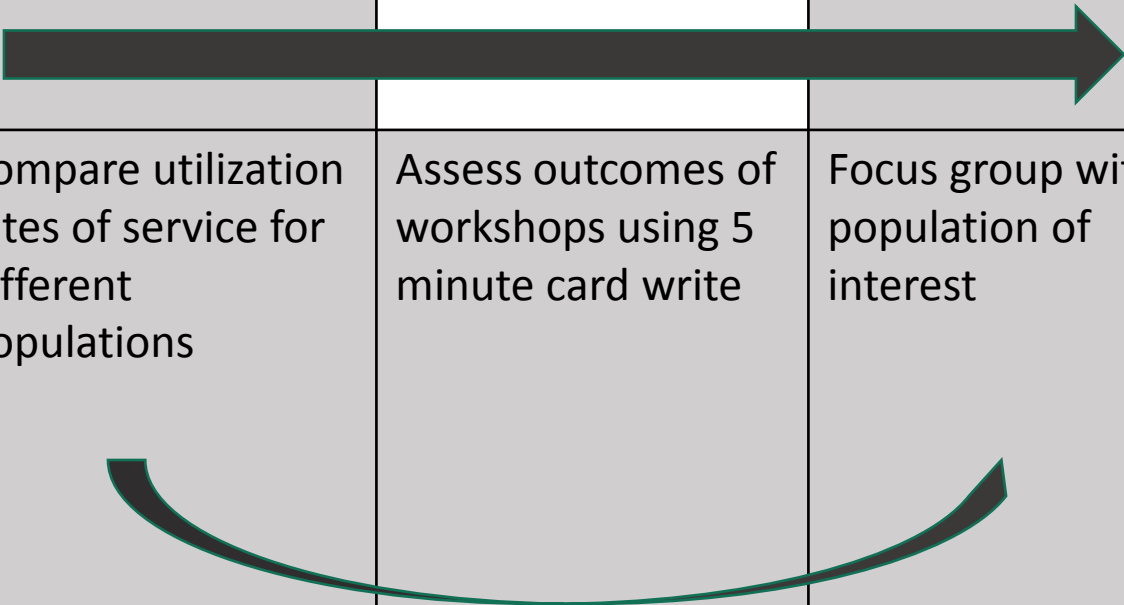

Example: "check-ins"

Assessment Projects:

YEAR 1	YEAR 2	YEAR 3	YEAR 4
Assess student perception of service/ outcomes	<u>No assessment</u> <i>Results are positive, so minimal changes made</i>	<u>No assessment</u>	Assess student perception of service/ outcomes

Example: Multiple Programs

YEAR 1	YEAR 2	YEAR 3	YEAR 4
Assess outcomes of major program using pre-post survey	<i>No assessment</i> <i>Make changes to program</i>	Reassess outcomes of major program using pre-post survey	<i>No assessment</i>
Compare utilization rates of service for different populations	Assess outcomes of workshops using 5 minute card write	Focus group with a population of interest	Request UCUES information from SAIRO for population of interest (e.g. service participation by transfers)

Activity

STEP ONE:

- On each post-it write:
 - Information need/Question
 - What type of data collection would accomplish this?

STEP TWO:

- Put them in order of importance to you/your department right now.

STEP THREE:

- Transfer notes to handout in the order you arranged them—one per section.

Now you have a draft of your “assessment agenda” or long-term plan.

Long-Term Assessment Planning

- Take into account program/department goals
 - Review program review documents, upcoming calendar, etc.
 - SWOT analysis (strengths/weaknesses, opportunities, threats)
- Identify key issues or questions
 - eg. Where are we short of resources?
 - eg. How can we show that students are learning?
- Establish a cycle for each of the assessments planned

Using Existing Data

- Know your potential sources of data
 - Know “data definitions” or specific variables
 - Frame request as specifically as possible
- Know how to request the data
 - Timeline
 - Contact person/process
- Options for linking existing data to your own data

Activity

- Review your survey and find 3-5 variables that would be of interest in your department

Surveys: <http://www.sairo.ucla.edu/Reports-Data-by-Survey>

- University of California Undergraduate Experience Survey (UCUES)
- CIRP Freshman Survey
- SA Graduate and Professional Student Survey (GPSS)

PROVIDING USEFUL INFORMATION
ABOUT STUDENTS

WELCOME TO SAIRO

[2015-16 Undergraduate Research Partnership Initiative Study Underway](#)

This year, a team of five undergraduate student researchers led by SAIRO is conducting a study on the use of social media as a space for dialogue related to race and race issues at UCLA. Learn more about this program and study by following the link above.

[2014 National College Health Assessment Report Now Available](#)

In the fall of 2014, the NCHA was administered to a sample of 4,000 undergraduate and 2,000 graduate students. View SAIRO's report based on 2014 NCHA data regarding students' health habits, behaviors, and perceptions.

[SAIRO Training in the Spotlight: "Conducting Focus Groups"](#)

At the beginning of the 2015-16 academic year, SAIRO provided an extended half-day training session to UCLA SA staff on the basics of conducting a focus group. Access the materials provided and learn about other by-request training available.

SAIRO is the research and assessment office within UCLA's Student Affairs organization. Our work focuses on keeping Student Affairs staff and other UCLA constituents up to date about the backgrounds, experiences, and needs of students; assisting Student Affairs departments in assessing their services; and contributing to campus- and UC system-wide research and assessment efforts.

REPORTS AND DATA BY SURVEY

The following surveys have been administered by SAIRO on UCLA's campus in recent indicated year(s). Click any of the survey links below to view accompanying reports and data. You can also read more about a survey by clicking its (i) icon, and view actual survey instruments by selecting a .pdf icon. If you can't find what you are looking for, consider [searching by topic](#) or [contacting SAIRO](#).

Survey	Instruments						
	2016	2015	2014	2013	2012	2011	2010
CIRP Freshman Survey*							
Diverse Learning Environments Survey (DLE)							
Graduating Senior Survey (GSS)							
Interfaith Identity, Experiences, and Attitudes Longitudinal Survey (IDEALS)							
National College Health Assessment (NCHA)							
Student Affairs Graduate and Professional Student Survey (GPSS)							
Transfer Student Study (TSS)							
University of California Undergraduate Experiences Survey (UCUES)							

*The CIRP Freshman Survey has been administered on UCLA's campus biennially since 1974.

College Choice, Transitions, and Retention

REQUEST EXISTING SURVEY DATA FROM SAIRO

SAIRO welcomes requests for data from Student Affairs and other UCLA units, departments, and affiliates.

The following data request form is intended to help you articulate your research and data needs. Before completing this form, please review our list of [things to consider before submitting a data request](#). Upon submission of your request, a SAIRO staff member will contact you within 3 business days with further information/next steps.

Should you have additional questions in the meantime or wish to learn more before submitting a data request, feel free to call us at (310) 206-8470 to schedule an appointment.
