

UCLA STUDENTS WITH DISABILITIES: ACCOMMODATIONS BASED ON DISABILITY TYPE (2016)

	N	Receive accommodations?	
		Yes (%)	No (%)
Physical disability only	93	50 (53.8)	43 (46.2)
Psychological disability only	551	138 (25.0)	413 (75.0)
Learning disability only	141	52 (36.9)	89 (63.1)
Multiple disabilities	275	148 (53.8)	127 (46.2)
Total	1060	388 (36.6)	672 (63.4)

COMPARISON OF UCLA TO OTHER UC CAMPUSES (2016)

*Chi-square analysis revealed a significant association between campus and likelihood of students reporting disabilities, as well as likelihood of receiving accommodations for disabilities ($p < .001$).

Source: UC Undergraduate Experience Survey (2016)

The UC Undergraduate Experience Survey (UCUES) is part of a larger collaborative project entitled The Student Experience in Research University-21st Century (SERU21). UCUES offers an in-depth examination of the undergraduate experience at the University of California overall as well as an assessment of the experiences of students at each of its nine undergraduate campuses. UC administered the survey, which was answered by approximately 63,115 students, in spring-summer 2016. More reports on UCUES data can be found at <http://www.sairo.ucla.edu/By-Survey/UCUES>.
